OBJECTIVES

Our Purpose is:

Our vision is:

Our fibre network is the essential enabler of an economically and socially vibrant, connected, innovative and globally competitive greater Christchurch

Access to high quality broadband connectivity is a necessity for societal growth and advancement and Enable is committed to continuing to deliver its world-class fibre connectivity to meet the needs of our community.

- Fast, reliable broadband services empower businesses within our community to innovate and grow in almost every way, locally and globally.
- Individuals and families depend on broadband services for entertainment, connection with each other, education, and other online services.
- Essential service providers – councils, government agencies (such as health and education) and community support organisations – are reinventing how they deliver services to our community using broadband connectivity.
- Cities themselves are being transformed through Smart City initiatives – in areas such as Data Management, Internet of Things and Artificial Intelligence, to name a few – to deliver greater community value, a better living experience for residents and a sustainable future.

The ongoing COVID-19 pandemic has made the critical nature of world-class broadband even more evident, as we all need to be flexible in our daily lives around where and when we work, and how we connect with family and friends, access services, learn, shop and are entertained.

Our purpose and vision define our role as the kaitiaki of the essential enabling broadband infrastructure that empowers our community. We are focused on building on our achievements of completing our network build ahead of schedule, connecting 142,000 customers to our network, and becoming profitable and delivering our first dividend to our community ahead of plan. We must be successful in meeting or exceeding our committed objectives.

- Operate and manage all aspects of our fibre network to a high level ensuring the delivery of services with a positive customer experience and keeping ahead of customer demand.
- Drive sensible commercial customer growth through effective market-led strategies based around product development, outstanding internet service provider relationships and customer marketing activity.
- Maximise our fibre network asset performance to secure commercial returns on investment that meet or exceed the cost of capital, considering the long-term nature of this infrastructure investment.
- Advocate the enormous potential of our world-class connectivity services to businesses, consumers, and community groups within our community to truly embrace and realise unlimited opportunities.
- Support more of our community to participate fully in and benefit from our digital society through initiatives focused on digital equity, with a particular emphasis on partnering to address digital inequity for the portion of our community who cannot participate in the digital world at all.
- Protect and enhance our community's future through sustainable business practice.

2023 Statement of Intent

We will continue to grow our relationship with iwi and mana whenua to build our knowledge and better understand Enable's relationship with the land and our community, and to realise community growth outcomes that support local iwi.

NATURE AND SCOPE OF ACTIVITIES

Our core business is to provide wholesale services delivered over our fibre network infrastructure. Our wholesale services form the basis of retail fibre broadband, voice, internet, TV, video calling, content, gaming, and IT services provided to customers (such as homes, businesses, and schools).

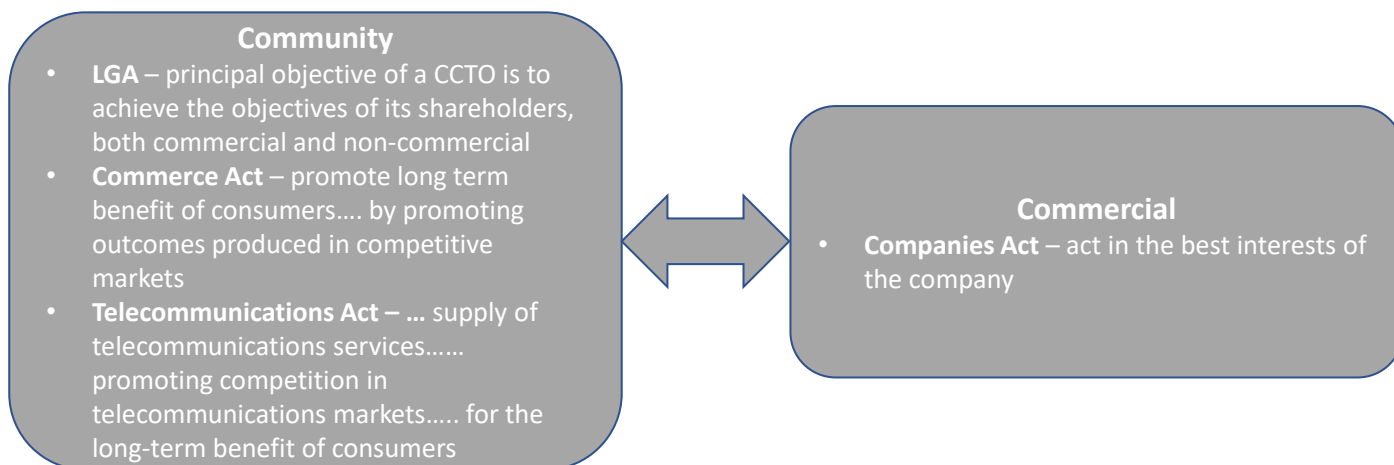

We were established in 2007 as the commercial need for businesses to access fibre broadband services in Christchurch became clear. Our parent company, CCHL, established Enable in alignment with its intent 'to own and manage key strategic infrastructure investments' that make Christchurch internationally competitive.

Today our fibre network reaches 205,000 homes, businesses and schools in Christchurch, Rangiora, Rolleston, Woodend, Kaiapoi, Lincoln, Templeton and Prebbleton, Tuahiwi, Ohoka and Tai Tapu.

We are focused on ensuring all connected customers constantly enjoy world-class connectivity that exceeds their needs and expectations in terms of speed, reliability, performance, and overall customer experience. Furthermore, we are connecting more customers to grow our business and deliver on our purpose for more people within our community.

We continually seek to provide our community with more value and new opportunities to benefit from our network and its capability. We also seek to invest in broader opportunities to deliver connectivity services to our community and generate greater value and returns to our shareholder and our community.

Our operations are guided by the expectations of a CCTO and a business operating in a commercial telecommunication market as depicted in the following diagram.

Through our core business we:

- provide affordable wholesale fibre broadband services;
- ensure our services support the increasing demand for quality high speed connectivity from our community;

2023 Statement of Intent

- provide efficient access to fibre services for local businesses and schools;
- ensure new Greenfield developments (subdivisions) nearby our network have access to fibre broadband network;
- ensure our network infrastructure is deployed in a way that minimises the impact to the environment; and
- maximise the opportunity to ensure the large numbers of new commercial and residential buildings are designed and built with provision for our network included.

We work closely with key stakeholders to ensure our fibre network and the world-class connectivity it enables supports wider community growth and wellbeing.

CONTRIBUTION TO BROADER GROWTH STRATEGIES FOR ŌTAUTAHI – CHRISTCHURCH

As a wholly owned subsidiary of CCHL, we actively support wider group initiatives aimed at collaborating, sharing resources, and identifying opportunities to collectively deliver greater value to our ultimate shareholder, Christchurch City Council, and the people in our community.

We support and contribute to CCHL's strategic framework built on the pillars of kaitiakitanga, mana, financial, sustainability and people and we contribute to this framework through our business strategy.

Ōtautahi - Christchurch is a city of opportunity for all... open to new ideas, new people, and new ways of doing things – a city where anything is possible.

Our ownership of a fibre network aligns with and supports long-term growth plans of local and central government. Our services are fundamental to the future growth of the economic and social wellbeing of our community.

Our investment, network capability and our services are key inputs into many of the outcomes sought under the Framework.

- **Resilient Communities** – Access to high quality connectivity is a vital enabler of community connection, participation in civic life, keeping our community safe and healthy and providing channels for relationships to be built and voices to be heard in decision making from across our community.
- **Liveable City** – Fibre connectivity is at the heart of our city being vibrant and thriving by underpinning much of the innovative technology that supports smart and modern urban development. Our connectivity is also essential to support sustainable suburban centres by empowering more services to be delivered from them and our community to spend more time in their local communities. Connectivity is also a critical component in a sustainable, low carbon transport system – by reducing the need to commute and travel to connect across our community.
- **Healthy Environment** – Fibre is the lowest emission connectivity option available to our local community. Fast and reliable fibre broadband It services enable remote and flexible working, online learning, access to online services and other connection needs which all help people to reduce their own emissions and waste.
